Answer: B

7.Which of the following is not a Linux DHCP client?

- A. dhcpcd
- B. pump
- C. dhcpd
- D. dhclient

Answer: A

8.How should you engage users in helping to secure your computer's passwords?

- A. Educate them about the importance of security, the means of choosing good passwords, and the ways crackers can obtain passwords.
- B. Instruct your users to e-mail copies of their passwords to themselves on other systems so that they're readily available in case of an emergency.
- C. Enforce password change rules but don't tell users how crackers obtain passwords since you could be educating a future cracker.
- D. Give some of your users copies of the encrypted database file as backup in case a cracker breaks in and corrupts the original.

Answer: A

9.Which of the following are risks of SUID and SGID programs? (Choose two)

- A. Bugs in the programs may cause more damage than they would in ordinary programs.
- B. The program files are large and thus may cause a disk to run out of space.
- C. Because the programs require password entry, running them over an insecure network link runs the risk of password interception.
- D. Users may be able to abuse a program's features, thus doing more damage than would otherwise be possible.

Answer: B, D

10.You are told by a co-worker that information pertaining to the syslog command can be found in man page 3. How would you view this information?

- A. man syslog 3
- B. man 3 syslog
