Answer: B

4.DRAG DROP
Match the port number to the use on the S-Series.

	This port is used for an HTTP connection to the administrative interface.
	Traffic from the client to this port will be handled by the HTTP proxy.
	Traffic from the client to this port will be handled by the HTTPS proxy.
	This port is used for an HTTPS connection to the administrative interface.

Select Deselect	80
Select Deselect	443
Select Deselect	8080
Select Deselect	8443

Answer:

	This port is used for **8080** connection to the adminis... terface.
	Traffic from the **80** this port will be handled b... TP proxy.
	Traffic from the **443** this port will be handled by... TPS proxy.
	This port is used fo **8443** TPS connection to the admir... interface.

Select Deselect	80
Select Deselect	443
Select Deselect	8080
Select Deselect	8443

5.Which of the following is a draw-back in using McAfee heuristic scanning?

Select exactly 1 answer(s) from the following:

A. Heuristic scanning increases the probability of false positives.

B. Heuristic scanning increases the probability of false negatives.

C. Heuristic scanning cannot detect new malware with unknown signature.

D. Heuristic scanning requires a separate license key.

Answer: A

6.For access policies, by default sites with Web reputation scores from what value through 10 are bypass malware scanning? Select exactly 1 answer(s) from the following:

A. 0

B. 3

C. 6

D. 9

Answer: C

7.What is the S-Series Proxy Bypass List?

Select exactly 1 answer(s) from the following:

A. a list of proxy servers to be bypassed

B. a list of clients and destinations that will bypass the proxy in explicit forward mode

C. a list of user agents exempt from authentication

D. a list of clients and destinations that will bypass the proxy in transparent mode

Answer: D

8.What parameter used by the WSA to distinguish between WCCP services?

Select exactly 1 answer(s) from the following:

A. service ID

B. forwarding method

C. port number

D. return method

Answer: A

9.What WSA CLI command can be used to search fora stringin a leg?

Select exactly 1 answer(s) from the following:

A. find

B. logview

C. logsearch

D. grep

Answer: D

10.Your see the code TCP_MISS in the access log. What does this mean?

Select exactly 1 answer(s) from the following:

A. The requested object was fetched from the WSA disk cache.

B. The requested object was fetched from the WSA memory cache.

C. The requested object was fetched from the remote server.

D. The requested object was fetched from the browser cache.

E. The requested object was not found on the remote server.

Answer: C
