Exam : MB4-218

**Title : Solomon 6.0 Project
Management & Accounting**

Version : DEMO

1.When the Revenue Tab in Project Controller is configured for Revenue Recognition to post to evenue? how is the general ledger account selected during the posting process?

- A.In the following order: First, from the Task Maintenance screen. If no account is defined, then from the Project Maintenance screen and lastly from the Project Controller Setup screen (Revenue Setup Tab).
- B.From the project or task, depending on the Percent Complete and Revenue Recognition Setup screen options. If none is defined there, then the Project Controller Revenue Setup Revenue GL Acct is used.
- C.From the GL account that is linked to the Revenue Account Category.
- D.Only from the Revenue Tab of Project Controller Setup.

Correct:B

2.What wildcard is available for Revenue Recognition General Ledger subaccount postings?

- A.p - Project Subaccount
- B.e - Employee Subaccount
- C.b - Billing Project Subaccount
- D.t - Task Subaccount

Correct:A

3.The Revenue Recognition process is run in Final mode on May 25. On May 31, the Revenue Recognition process is run again before month end closing. If a project was 80% complete on May 25 and due to additional reclassification expenses posted to the project it is now 75% completed, what postings will be made by Revenue Recognition?

- A.The 5% decrease will be posted to the project and general ledger.
- B.Nothing: Revenue Recognition can only be run in Final mode once each period.
- C.A manual entry to the project and general ledger is required.
- D.The original posting will be deleted and a new posting generated for both the project and general ledger.

Correct:A

4.For any project related transaction to be eligible for transfer to a project via the Financial Transaction Transfer process the status must be?

- A.Released
- B.Posted
- C.Balanced
- D.In Process

Correct:A

5.A project is set up in October of 2001, and costs and billings are generated. The Year-End Close process is run in Project Controller for 2001. If the Project Profitability Report is run in January of 2002, the PTD and YTD amounts are equal. What happened?

- A.The Year- End Close function processed incorrectly. Re-run Year- End Close to correct the issue.
- B.The contract type was defined incorrectly in Project Maintenance. Selecting the correct contract type will change the PTD amounts.
- C.There are no transactions for January 2002. Once transactions are entered, the PTD and YTD balances will be different.
- D.The project is not set up to carry a balance forward at year-end. Check the box in Project Maintenance and re-run Year-End Close.

Correct:D

6.At what level(s) are Project Budgets and EACs created?

- A.By General Ledger account.

- B.At the Project level.
- C.For an Account Category within a Task within a Project.
- D.For a Task only within a Project.

Correct:C
