**Exam** : **000-N34**

**Title** : IBM Tealeaf Technical  
Mastery Test v1

**Version** : Demo

1. When Events fire, what happens:

- A. A counter is incremented that tracks the occurrence of the Event for Reports
- B. An Event value can be set and saved in the session data
- C. Dimension values can be set and saved in the session data
- D. All of the above

**Answer: D**

2. Looking at the image, which Value to Record would you use to combine individual product codes so they are displayed in reports as product areas?

The screenshot shows the 'Add Dimension' dialog box. It has fields for 'Name' and 'Description'. Below these are 'Populated By' (with a 'Select...' button) and 'Populate With' (set to 'First Value on Page/Ht'). An 'Advanced Options' section is expanded, showing 'Values to Record' (dropdown), 'Default Value', 'Max Values Per Hour', 'Allow Empty Values' (checkbox), and 'Set Value Display Order' (checkbox). The 'Values to Record' dropdown is open, showing four options: 'Whitelist + Observed Values' (labeled A), 'Whitelist Only' (labeled B), 'Group Lists - Text' (labeled C), and 'Group Lists - Numeric' (labeled D). Red arrows point from the labels A, B, C, and D to their respective options in the dropdown menu. At the bottom are buttons for 'Edit WhiteList...', 'Edit BlackList...', 'Turn On Logging', 'Reset Trim Flag', 'Save Draft', and 'Cancel'.

- A. Whitelist + Observed Values
- B. Whitelist Only
- C. Group Lists - Text
- D. Group Lists - Numeric

**Answer: C**

3. Looking at the image,

Which button is used to view a list of Events that fired in the session?

- A. A

B. B

C. C

D. D

**Answer: D**

4.What is a Report Template?

A. A framework from which you can build robust Dashboards, Scorecards, or Reports

B. Proactive notifications of changes in Event levels.

C. A way to segment Event Data.

D. Basic interface to replay a session

**Answer: A**

5.A Count Event could be used to record any of the following EXCEPT:

A. The abandoned cart amount

B. How many customers logged in

C. How frequently visitors see an out of stock message

D. How many times an error code is displayed

**Answer: A**
